

STOP THE BLEED® Scholarship Topic for 2023

Make the case: Why should your local or state government adopt STOP THE BLEED® legislation?

There are a growing number of states that have adopted or who are considering adopting STOP THE BLEED® Legislation that require people to become STOP THE BLEED® trained and for STOP THE BLEED® Equipment to be placed in various building types - schools, workplaces, etc. The US Congress is also working on bi-partisan STOP THE BLEED® bill. Many local and county governments are doing the same.

Make the case as to why your local or state government should adopt STOP THE BLEED® legislation. Your essay or video should be in the form of a pitch to your local or state elected representative (for example, your Mayor, local Council Member, Congressional Representative, Senator or Governor).
